PROFESSIONAL SUMMARY

Full Stack Developer with internship experience building responsive web applications using React.js, Next.js, Node.js, and Express.js. Experienced in developing REST APIs, implementing authentication workflows, integrating MySQL and PostgreSQL databases, and improving application usability through UI enhancements, testing, and debugging. Collaborates effectively using Git and GitHub to deliver reliable, production-ready solutions.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript, SQL

Frontend: React.js, Next.js, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js

Databases: PostgreSQL, Prisma ORM, JSON Server

Tools: Git, GitHub, VS Code, Postman, Vite, npm

AI Tools: GitHub Copilot, Cursor, ChatGPT

Deployment: Vercel, Railway

Concepts: REST APIs, CRUD Operations, JWT Authentication & Authorization, Responsive Web Development, API Integration

EXPERIENCE

UI Developer Intern

Tech Vanta Labs Pvt. Ltd.

Bengaluru

Jan 2026 – Jul 2026

- Developed responsive UIs using React.js, Next.js, HTML, CSS, and JavaScript for multiple live client projects.
- Improved application usability by implementing UI enhancements, bug fixes, and testing workflows.
- Collaborated with teams using Git and GitHub for version control and streamlined project delivery.

Key Contributions:

- Frontend development for Tech Vanta Labs corporate website.
- Built responsive UI components for Araaq platform.
- Implemented user interface features for MyMeet conferencing application.
- Contributed to redesign and usability improvements for TicketDesk 24.
- Developed and optimized layouts for Jullix Web.

PROJECTS

Collector Hub | *React.js, TypeScript, Vite, Tailwind CSS* GitHub

- Developed a responsive marketplace and community platform enabling collectors to manage items, engage in community feeds, and maintain personal collections.
- Integrated REST APIs with Axios, React Query, and Zustand to optimize state management and data fetching.
- Implemented robust form validation using React Hook Form and Zod, improving input reliability.

Secure Notes App | *Next.js, TypeScript, PostgreSQL, Prisma, JWT Authentication* GitHub

- Designed and implemented secure authentication workflows with JWT, supporting login, signup, and protected routes.
- Built CRUD functionality for notes with PostgreSQL and Prisma ORM, ensuring efficient data handling.
- Added priority management and search features with responsive design for improved usability.

LeadDesk Mini CRM | *Next.js, Node.js, Express.js, MySQL* GitHub

- Built a mini CRM using Next.js, Express.js and MySQL (deployed on Railway + Vercel).
- Created public lead forms and admin dashboard with authentication and session management.
- Implemented REST APIs and input validation for reliable lead tracking.

Revenue Reconciliation Dashboard | *Node.js, Express.js, MySQL* GitHub

- Engineered a dashboard to reconcile CSV datasets by detecting duplicates, missing orders, and payment mismatches.
- Automated reconciliation workflows with clear discrepancy reporting and AI-assisted explanations.
- Designed analytics visualization to provide actionable insights into revenue reconciliation.

CERTIFICATIONS

Python Programming — New Horizon College

Machine Learning — New Horizon College

Software Testing — Alpha Tech Academy

Data Visualization with Power BI — Great Learning Academy

EDUCATION

Master of Computer Applications (MCA)

2024 – 2026

PES University, Bengaluru

Bachelor of Computer Applications (BCA)

2020 – 2023

New Horizon College, Bengaluru
